Arntjen calf-hutch

calf-hutch small

calf-hutch big

calf-hutch group

Calf-hutch maxi

Feed System Compact for calf-hutch small and big.

Arntjen calf-hutch

The optimum way to rear calves:

- user friendly fence
- saving costs by breeding as the calf quicker develops, and the calf weaning period is being shortened
- hutch is made of polyester reinforced with fibreglass, that is why it is not affected by UV-radiation
- the shape of the hutch makes ventilation openings unnecessary and thereby preventing draughts

The calf hutch prevents any light from penetrating, while the white colour reflects sunlight. This keeps the hutch cool in relatively high temperatures.

The hutch offers good hygiene. It does not have any seams or profiles in which dirt can collect. Medication expenses and visits from the vet will decline and lower the pressure of infection and illness.

- hutch and fence can be folded
- two wheels to move the whole hutch
- hardwood threshold

Technical data:

calf hutch made of polyester reinforced by glass fibre

(length x width x height):

small: 150 x 120 x 125 cm

big: 200 x 120 x 140 cm

fence: 150 x 120 x 95 cm

group hutch for up to 5 calves:

260 x 225 x 180 cm

fence for group hutch:

225 x 225 x 105 cm

maxi hutch for up to 10 calves:

245 x 450 x 200 cm

fence for maxi: 290 x 450 x 105 cm

serial equipment:

hutch with fence, threshold and 1 bucket holder

calf-hutch small 03212

calf-hutch big 03213
